Advocacy and Research Resources

Visit the links below to view resources from NASDCTEc, including issue briefs, data sheets, best practices examples, webinars, and more. The resources can be used to advocate for and educate lawmakers about CTE. All of the resources are available online at www.careertech.org. For more information, please contact Kara Herbertson at kherbertson@careertech.org.

Policy & Legislation

Issue Briefs and Papers: http://www.careertech.org/legislation/briefs-papers.html

The five-part series describing each principle of the CTE Vision can be found here in addition to many other informative issue briefs and papers.

Advocacy Toolkit: http://www.careertech.org/resources/advocacy-tools.html

This page contains many resources for advocacy, including CTE fact sheets, tips for advocacy, one-pagers, and resources specifically geared toward business and industry.

Research & Best Practices

Webinars: http://www.careertech.org/resources/webinars.html

Register for upcoming webinars and view archived webinars on pertinent topics.

Research & Information: http://www.careertech.org/resources/information.html

This page provides recent CTE-related reports and data from outside organizations and institutions.

CTE Success Map:

Log into the Members Only section of www.careertech.org to see if your state is represented! The CTE Success Map will feature outstanding CTE programs across the nation. We aim to have at LEAST one example of an excellent CTE program for each state. Please submit CTE program examples (only those containing at least one of the following data points: program/school graduation rate, placement, and postsecondary credential/certificate attainment rates) to Kara at kherbertson@careertech.org.

Coming Soon to www.careertech.org!

State-Specific Data Sheets:

These one-page sheets will be available later this fall on www.careertech.org. Each sheet will give an overview of CTE funding, enrollment, and student achievement for a specific state.
