

Tech Prep:

Best practices:

All had to do with data

1. WV has “Edge program” Earn a Degree and Graduate Early. All students can obtain a college transcript while in high school.
2. FL – Secondary data & community college data... an outcomes booklet distributed on accountability data...
3. TX – statewide tech prep data collection system. Provides data on each consortium, district, and high school.

Challenges

1. Collecting reliable data
2. Making data useable and disseminating it back to locals
3. Transition from secondary to postsecondary – remediation

Opportunities

1. Help shift perception of CTE
2. Develop stronger relationships among stakeholders
3. Ensure students get articulated credit
